

FOR IMMEDIATE RELEASE

NEW BROCHURE DESCRIBES MAGCAP ENGINEERING CAPABILITIES

CANTON, Mass., December 17, 2001 - MagCap Engineering, LLC, a leading manufacturer of custom magnetics, announces the availability of a new full-color capabilities brochure.

The brochure describes the company's range of custom magnetic products, services, markets, and capabilities. MagCap Engineering manufactures custom power transformers and reactors; pulse forming networks, oil filled transformers with expansion bellows; high voltage power transformers and inverters; high voltage filament and isolation transformers; pulse transformers; trigger transformers; current transformers and power supplies. MagCap supplies these products primarily to the broadcast, telecommunication, food, microwave, military, and defense industries.

Also described is the company's engineering and manufacturing operations. MagCap Engineering uses AUTOCAD for mechanical drawings, ORCAD for electrical design and MagCap Transformer Software to provide customers with a design and quote within 24 hours.

Numerous testimonials from customers such as Thomcast Communications, Raytheon and Ferrite are also included.

A free copy of the brochure can be obtained by contacting MagCap Engineering LLC, 222 Bolivar Street, Canton, MA 02021; telephone (781) 821-2300.

MagCap Engineering, LLC is a leading custom designer and manufacturer of magnetics of all sizes for the broadcast, telecommunication, microwave, military and defense industries. The company also consults on refurbishing existing units and is a major repair center for magnetics.
